

## **TUI Chemistry and Energy Executive Committee Meeting**

**25<sup>th</sup> june 2019, CAIRO, EGYPT**

### **Declaration**

This meeting of the executive committee of TUI Chemistry & Energy held at Cairo on 25<sup>th</sup> june 2019 resolved to convey solidarity to toiling people of all the countries over the globe in general, while strongly oppose the exploitation of workers in different countries in jeopardy of human rights.

We vehemently oppose the war and terrorism and formally stand for peace and solidarity of the workers, women and men, all over the world.

We must reaffirm, our support to people of Palestine, who is struggling every day for its existence as a nation. We must reaffirm, as we do whenever a national sovereignty is flouted by the intervention of any foreign power, that it is up to the people to lead a social revolution and to choose their model of society in which they want to leave.

The executive committee severely decry US sanction on developing countries of the world

The committee express its deep concern on the suffering of women workers in many countries out of equality of rights as worker and citizen, but also violence and we strongly demand equal rights with wage and scope of job, as well as safety and health to meet the special need of women workers.

We give all our support to struggle of Yemeni workers who worked for TOTAL during many years and were abandoned without any wages, also support to Egyptian workers of Pirelli who are fighting for their rights. We formally demand that all those multinational companies assume their responsibilities and that those workers are returned in their rights.
