GREECE OUT OF MILITARY OPERATIONS AND IMPERIALIST WAR

Thousands of people demonstrated on Monday June 23 in Athens and other cities of Greece against the escalation of the imperialist war and the participation of Greece in it.

In Athens the demonstration started with a rally at Syntagma and ended with a march to the American embassy, where the massacre against the peoples of the Middle East was denounced.

The trade unions of Greece demand:

Greece out of war operations and imperialist war!
No cooperation with the murder state of Israel!
Shut down the bases of death - Turn back the ships and personnel of the armed forces on missions abroad.
